iR1020/iR1024F/iR1024iF

Introducing the compact A4 network printers that think big.

Make business communication a pleasure, with the deceptively compact iR1020/iR1024 series. Combining the functionality of a variety of individual devices in one space-saving multifunctional unit, each solution packs a powerful punch. Advanced desktop communication has never been so easy.

Impressive, simple-to-use communications

For superb versatility and efficiency, look no further than the iR1020/iR1024 series. Choose from black & white print, copy and fax capabilities, or scan and send in vibrant full colour.

With printing at up to 24ppm and crisp 1200 equivalent x 600dpi resolution, you'll never sacrifice quality for speed.

Automatic duplexing allows printing on both sides of the page reducing costs and wastage. The Automatic Document feeder (standard on iR1024F & iR1024iF) supports double-sided reading to reduce user intervention and document handling.

Easy network integration

The iR1020/iR1024 series provide standard local print capabilities via an integrated USB2.0 port. The iR1024iF comes network print - ready via ethernet, utilising Canon's advanced performance UFR II Lite printer language. This can be optionally added to both iR1020 and iR1024F models. An optional PCL print kit is also available for all three models, to meet the demands of a PCL environment.

Fax at Super G3 speed

Super G3 Fax technology is standard on both iR1024F and iR1024iF. And with the 50-sheet Automatic Document Feeder, you can manage and fax bulky documents with ease.

The compact iR1020

The iR1024F with document feeder and Super G3 fax.

Highly advanced features include:

- **Compact desktop design**
- **20-24 ppm B&W**
- **B&W and Colour scan**
- **Automatic duplex capability**
- **Maximum 1,100 sheet capacity**
- **iR1020/1024F offer optional network printing (Standard on iR1024iF)**
- **iR1024F and iR1024iF feature a Super G3 Fax with PC Fax function**
- **iR1024iF features Colour Send and file conversion to TIFF, PDF or JPEG**

Powerful communication

Open up a whole new world of possibilities with the iR1020/iR1024 series. You'll be able to scan and send information direct from the device to numerous locations. Files can be converted to TIFF, PDF or JPEG format and routed to your specified destination, whether that's an email address, FTP site, desktop folder, iFAX or even a document management database. In fact, the iR1024iF is so advanced, it can even compress PDF's to just 10% of their original size without loss of quality.

Colour Send

The iR1024iF's Colour Send feature makes sharing information fast, secure and inexpensive by eliminating the expense of printing, sending and storing paper documents. Communication becomes super clear and vibrant.

Security Management

Utilise the Department ID mode to set volume limits and control access to print, copy and scan features for up to 1,000 individuals or groups.

Remote User Interface

Through Canon's standard remote user interface (RUI) feature, selected users can check job status, system status, add new users, and more, all in real-time from a standard web browser.

iW Management Console

This highly-scalable, web-based software utility, simplifies set-up and management of devices on a network. The innovative e-Maintenance facility can also be added, to monitor devices and automatically request a technician visit, if required.

Clever energy-saving sensor

Canon's innovative On-Demand fusing technology enables an energy saving sleep mode when the machine is not in use – and when needed – fully operational again in seconds. Energy consumption is reduced, without affecting productivity.

Products of the latest environmentally friendly manufacturing techniques, the iR1020/iR1024 Series comply with the European RoHS directive*, prohibiting the use of lead and hazardous substances in manufacturing. Each model also conforms to the International Energy Star Program.

** Restriction of hazardous substances.*

The iR1024iF features Colour Send and File conversion to TIFF, PDF or JPEG.
